

PIONITE® COLORS

The following is a list of Pionite colors and the SeamFi colors needed to match them. Find the desired color in the left-hand column. SeamFi color numbers appear to the right under their approximate mixing proportions. It may be necessary to increase or decrease proportions to improve the color match. The number 1 in the chart means that essentially 100% of the given color is used. "Slight Touch" and "Speck" are for tinting purposes.
